Why Choose Vheda?

Vheda Health provides turnkey virtual chronic care and maternal health programs that address the challenges of expensive chronic conditions, prevalent across diverse Medicaid, Medicare, and SNP populations.

At the heart of Vheda Health's solution is **real-time access**, achieved with an **easy-to-use iPhone** and devices that measure specific biometric data, which is analyzed and **shared in real-time with the care team**, enabling early detection that keeps members out of the hospital or emergency care setting.
